REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The closest prior art of record fails to teach or suggest the recited fiber reinforced plastic roofing material structure. Independent claim 1 identifies the uniquely distinct features of "a resin distribution medium comprising a body having resin flow channels formed therein and a fiber reinforced layer placed between abutting end surfaces of said sandwich structures." The closest prior art of record, Kawanomoto et al. (JP 09-202145), discloses a sandwich structure having a pair of fiber reinforced plastic sheets, which either singularly or in combination, fail to anticipate or render obvious the above limitations. The other closest prior art of record, Niimura et al. (JP 08-193409), discloses a fiber-reinforced plastic panel with a joint part filled with resin putty, which either singularly or in combination, fail to anticipate or render obvious the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Catherine Simone whose telephone number is (571)272-1501. The examiner can normally be reached on 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Harold Pyon can be reached on (571) 272-1498. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
